

Indigenous Relations & Strategic Partnerships

At AMA Energy, we are proud to have established a strong and lasting partnership with **Hunter Energy Services Ltd.**, an Indigenous-owned company rooted in **Halfway River First Nation**. Together, our companies are committed to fostering meaningful local engagement, creating opportunities, and building sustainable growth in the communities where we operate.

This collaboration is built on a shared vision: advancing economic opportunities in rentals and transport while reinvesting in community initiatives such as rodeos, cultural camps, and other local events. By aligning our strengths, we are able to deliver greater value through increased efficiency, stronger revenues, and deeper community involvement.

Importantly, Hunter Energy Services holds a **51% decision-making authority** in equipment rentals and transport. This ensures operational alignment, transparency, and a partnership that is both equitable and mutually beneficial.

We are excited to continue working closely with Hunter Energy Services to identify and pursue opportunities across the **Western Canadian Sedimentary Basin (WCSB) energy sector**. To learn more about our partnership or explore collaboration opportunities, we invite you to connect with us.
